Whitepaper

Upgrade Your Kentico Experience with SilverTech and Xperience by Kentico

While Kentico 13 has well served as a cornerstone platform for many organizations, Kentico has announced that version 13 and older versions are nearing lifecycle conclusion with no feature upgrades planned and support for the products completely ending in late 2026. If you weren't planning to upgrade your web platform this year, the news may seem overwhelming. However, it's actually very positive news because Kentico is launching a new DXP completely architected on very modern .NET 8 hybrid headless technology.

This is because Kentico architects and developers have been working hard at building a new, modern .NET 8 platform called Xperience by Kentico DXP that is created on the most innovative hybrid headless technology available today. This new solution is a huge leap forward for your organization – better technology, more intuitive, enhanced content management and modeling, faster performance, future-proofed and versionless!

That means that Kentico is going to release upgrades to the platform and manage patches, security and enhancements so not only is your platform secure, but it is ALWAYS modern and updated.

Xperience by Kentico is a Game Changer

- It's fast and high performing! Plus, go-to-market time is significantly reduced for most implementations.

- It's versionless. Kentico updates it monthly with small refreshes that bring you new features, technical improvements, and security enhancements. This is a huge advantage to future-proof your investment and make sure your organization stays ahead.

- Includes out-of-the-box capabilities such as omnichannel marketing and analytics, multilingual, multi-site shared content management, personalization, drag and drop forms, improved search, AI-assist and more.

- Available as SaaS, on-premises, or self-managed cloud.

- Plug and play integrations and an extensive API layer make it easy to create seamless customer and member experiences.

- Xperience by Kentico is a DXP with ISO 27001 and SOC 2 Type 2 certifications to put your security officers at ease

- You've got to see it for yourself! Ask us to demo Xperience by Kentico for you!

Kentico Xperience.
Gold Partner

SilverTech: Your Trusted Partner for a Seamless Xperience by Kentico Upgrade

There's no need to navigate this transition alone. As a Kentico Gold Partner, SilverTech possesses an unparalleled understanding of the Kentico platform. Our extensive experience launching various websites on Kentico platforms ensures a smooth migration to Xperience.
